

RFP – Phone System

Gulf County School District is accepting bids for the following phone system specifications.

Requirement for the system is approximately 270 users (phones) with voicemail. The system should be IP telephony, Cisco equipment is preferred but others can be accepted. The phone types should be ten front desk office style phones with side cards for extra line capacity, five conference phones and the remaining, two hundred and sixty standard phones for offices and class rooms. The system should have a 911 locator.

The district is looking for either a hosted or an onsite system that will interface with the districts WAN (1 GB backbone network, all Cisco switches with POE). Please forward any bids or questions to Terry Thompson, Network Administrator – tthompson@gulf.k12.fl.us.
